

# NEWS & VIEWS

May 2008

Sub-Terrain Directional Drilling Limited started just over 4 years ago. With the GTA's deteriorating infrastructures, President Bill Thorne saw a need for the non-invasive, environmentally friendly trenchless technology. Bill and his team have over 100 combined years experience in the underground construction field. Their high tech equipment can install various pipe underground, without a need for conventional trenching or digging. This technique is safe and effective and can reach areas that are inaccessible without destruction. They use state of the art equipment consisting of 5 horizontal directional drills, which can drill pipe sizes from 1 inch up to 36 inches. Hydro Vacuum excavation, using water to break up earth while being simultaneously removed by a powerful vacuum is also offered. This method is another safe, non-destructive means of excavation which assists the directional drills in clean up, while exposing any existing utilities on projects. Clients range from homeowners, businesses and municipalities for projects such as irrigation, cable, telephone, gas, water main and sewer installations.

## Wanted!!! Input On Library Services!

The Library wants to better serve the local business community. Help us discover how we can better meet your needs by participating in a focus group run by a 3<sup>rd</sup> party on Tuesday, May 20<sup>th</sup>. Please call Carolyn Nordheimer James at 905 642-7323, ext. 223 to indicate your interest.

*" There are three kinds of managers:*

- 1. Those that make things happen.*
- 2. Those that watch things happen.*
- 3. Those that wonder what happened. "*
